TECHNICAL SKILLS: Java, PHP, MySQL, Tcl/Tk/Expect, ASP/VBScript, JSP, Servlets, J2EE, XML, DTD, HTML, XHTML, JavaScript, C/C++, Make, Eclipse plugin development, SWT, Linux CLI, Websphere, Macromedia Flash ActionScript, embedded software development, GDB debugging, Windows 2000 server, DHCP, DNS, Firewalls, IIS, and Apache

WORK EXPERIENCE: SiteGenie LLC – Rochester MN

- August 14, 2006 – Present
- System and Network Administrator
- I am responsible for installation and maintenance of servers and software. I troubleshoot and fix various networking and computer problems.

Winona State University Software Testing Lab

- January 2004 – May 2006
- Team Leader, May 2005 – May 2006
- Confidential contracts with IBM and Digi International
- Java, C/C++, PHP, MySQL, and Tcl/Tk/Expect
- I developed and tested software in both a team environment and individually. I wrote automated test scripts in TCL, and test cases for manual testing. I had experience with all stages of the software lifecycle. I helped develop new software tools in JAVA. As team leader I was responsible for assigning work, leading conference calls, and writing weekly status reports.

Watlow - Winona MN

- November 5 – 20, 2005
- Java Programming
- I worked in a team of 3 for two weeks developing a temperature control simulator in JAVA. I was responsible for developing the menu navigation system and the user interface for displaying the menu.
